RESPONSIBILITY
PASSION.

Snapliments® can change the culture and climate in your classroom by creating an environment of respect and rapport. This program helps to manage classroom procedures, student behavior and expectations. Students engage in learning, communicate with families about their days and become motivated to achieve.

Students collect Snap-its (a cross between a snap and a flair button) which are awarded by teachers for their positive achievements. Each teacher customizes when, why and how Snap-its are given; the program is flexible and responsive. A teacher will compliment a student for their earned achievement whether it be academically, physically or socially.

Snap-its are for students in the classroom like helmet stickers are for football players on the field.

Snap-its are based on the school's mascot and crest. These icons represent the values that the district represents. Students who wear school logo items have more school spirit; students with more school spirit become leaders and do better academically. Snapliments® brings excitement, healthy competition and creativity to learning in the classroom!
